

Garden Maintenance

- Transplant dormant trees and shrubs – water in Organics Seaweed planting tonic to reduce stress.
- Feed bulbs and hellebores with Garden King All Purpose Plant food and continue liquid feeding of vegies with Harvest or Nitrosol fortnightly.
- Divide overgrown clumps of plants.
- Prune summer flowering shrubs and roses.

Protect sensitive plants from frosts.

In late winter, prepare garden beds for spring planting.

Lawns

- Treat lawns with Winter Grass Killer before seed heads appear.
- Late in winter check for bindii and treat with Chemspray Bin-Die.

Winter Planting

- Plant deciduous and bare rooted trees & shrubs & roses.
- Take hardwood cuttings from deciduous plants and plant into Amgrow Seed Raising Mix.
- Plant up pots and garden beds with pansies, primulas, polyanthus and hellebores.
- Canterbury bells, delphiniums, dianthus and can be planted - protect from frost.
- Kitchen garden – plant asparagus, lettuce, peas, potatoes, silver beet, broad beans, onions, cauliflower.
