

SUMMER Checklist

Garden Preparation

- Treat gardens with Wettasoil Granular and AquaMagic to improve moisture retention & rewetting
- Apply 4Vital to increase minerals in soil
- Mulch with Amgrow Superior mulches to help retain moisture and protect plants from heat

Garden Maintenance

- Prune shrubs, bushes & Australian natives after flowering
- Fertilise plants with Harvest or Organix specifics or Garden King Plant Foods
- Treat all plants regularly with Plant Health Spray to build up resistance against insect pests & disease
- Repot plants in Amgrow Potting Mixes
- Treat fruit with Rogor against fruit fly

Lawn Maintenance

- Aerate & Top Dress with Amgrow Supertop
- Raise the height of the lawnmower, a slightly longer lawn needs less water
- Fertilise with Shirleys No 17 or Tropic

Summer Planting

- Plant Summer vegetables such as tomatoes, capsicum, eggplant leafy greens, pumpkins & sweet corn.
- Plant seedlings of marigolds, petunias, portulaca, salvia, poppies for summer colour
- Fertilise with Harvest or Organic Xtra
