

Amgrow Buffalo Lawn Food is a balanced formulation of essential nutrients specifically formulated for warm season grasses such as buffalo, kikuyu, and couch. The high nitrogen levels make this product especially suitable for use on buffalo lawns and other warm season grasses.

It contains a unique bio-active compound fertiliser which is high in carbon and humic acids. This component enhances nutrient uptake, increases soil organic matter and improves overall soil health. Amgrow Buffalo Lawn Food also contains wetting agent to ensure infiltration into the lawn and additional iron to ensure a rich green colour to the lawn.

Guaranteed Analysis:

Total Nitrogen (N) %	11.8
As Ammonium	6.0
As controlled release	5.1
As Organic	0.1
As Urea	0.7
Total Phosphorus (P) %	0.9
As water soluble	0.8
As citrate soluble	0.1
Total Potassium (K) %	7.3
As chloride	5.5
As organic	1.8
Sulphur (S) %	8.3
Calcium (Ca) %	1.4

Impurities (mg/kg)	
Mercury (Hg)	1.0
Cadmium (Cd)	1.3

Nitrogen:Phosphorus = 13.1

Directions

Lawn Establishment:

Rake into top soil at the rate of 30 grams per square metre. Water in well prior to seeding or laying turf.

Lawn Maintenance:

Apply to a dry lawn at the rate of 30 grams per square metre in spring and autumn. Broadcast evenly and water in well.

To give the lawn a boost in summer use at the lower rate of 15 grams per square metre.

Always water in well, immediately after application.

Measurement Guide:

1 cupful = approximately 250 grams
1 handful = approximately 50 grams

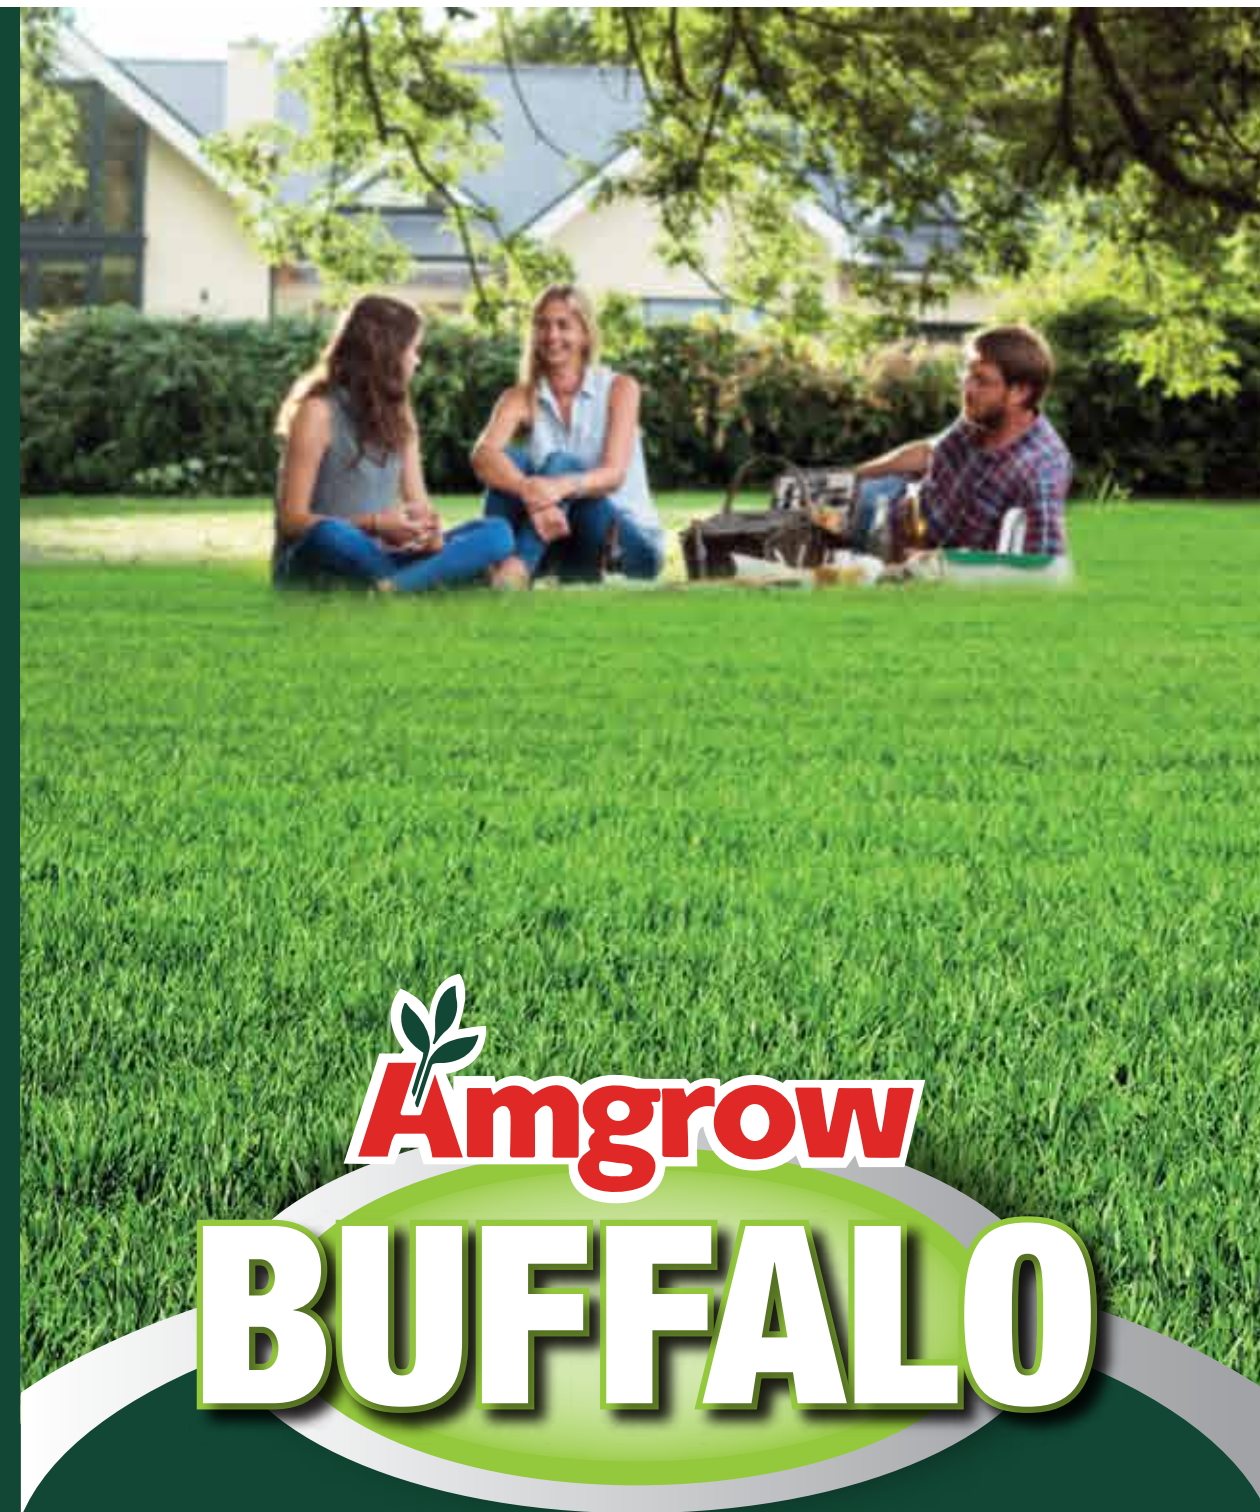

Warning Statement

Do not swallow. The dust from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin. This product contains heavy metal impurities. Its use may result in accumulation of cadmium in the soil.
