# SEAWEED

## CONCENTRATE

Amgrow Seaweed Concentrate is produced from Tasmanian Bull Kelp - an all natural source of trace elements, natural growth stimulants and minerals. Amgrow Seaweed Concentrate is suitable for all types of plants. It stimulates root growth, encourages healthy flowers and fruit and improves nutrient uptake. Amgrow Seaweed Concentrate is beneficial in reducing plant stress due to transplanting, drought or frost. This product also works to strengthen the plant's immune system which improves disease resistance.

### DIRECTIONS FOR USE

Shake well before using. Add 20-30ml per 9L of water. Apply to lawns at 40ml per 9L over 5m<sup>2</sup>, large trees 100ml per 9L. Do not apply to foliage when temperature exceeds 30°C.

### HOW TO USE

	Directions
Pots and Garden	Apply by watering can over root zone, every 2-4 weeks
Roses	Apply by watering can over root zone every 4 weeks
Established Gardens	Water mix onto soil or spray foliage every 2-4 weeks.
Seedlings	Soak punnet or tray in mix prior to planting out. Apply weekly.
Lawn	Use 40mL per 9L over 5m <sup>2</sup> . Apply mix to lawn with watering can or sprayer every week when establishing, then every 3-4 weeks.
Transplanting and planting out	Apply mix to soil and spray foliage at time of planting and again 1 week later.
Large Trees	Use 100mL per 9L. Apply by watering can over the root zone every 4 weeks.
