Patrol®

OUTDOOR & INDOOR BARRIER SPRAY PROFESSIONAL STRENGTH

ACTIVE CONSTITUENT: 0.5 g/L BIFENTHRIN

Kills and repels household pests by forming a barrier around the home.

CONTENTS 4 Litres

Amgrow Patrol Outdoor & Indoor Barrier Spray Professional Strength is effective in two ways:

1. It kills pests on direct spray, and
2. It has a residual effect on sprayed surfaces to stop pests entering the home through cracks, windows and doors. 5 L of Amgrow Patrol Outdoor & Indoor Barrier Spray Professional Strength covers approximately 100 square metres, which is an adequate barrier for the average home.

HOW TO USE

The product is ready to use. No dilution or mixing is required. Shake well before use. For complete home protection, perimeter treatment is advised. Apply to a band of soil or vegetation 2 - 3 metres wide around and adjacent to the home. If the treated band is disturbed, a new application should be made to maintain the barrier. Also spray under eaves, around window frames, behind down pipes and gutters, around sheds and all other insect infested areas outside the home. Spray areas thoroughly holding the spray nozzle about 20 - 25 cms from the surface. Spray evenly and to near the point of run-off using around 5 L of spray mixture per 100 square metres. Residual control will be achieved on non-absorbent surfaces (timber, fibre cement, ceramic, aluminium). Residual control on absorbent surfaces (bricks and concrete) will be noticeably shorter. After use, place original cap back on container.

SITUATION	PESTS	HOW TO APPLY
All internal & external areas & surrounds of domestic buildings and structures around the perimeter of the home.	Spiders	Spray directly onto spiders or where webs are present. For longer lasting protection spray under floors, eaves, around windows, protected darkened areas and inside cracks and crevices. Repeat when spiders begin to reappear.
	Papernest wasps	Spray nests directly and to the point of runoff. When all adult wasps have been knocked down remove the nest from the structure.
	Ants	Apply to trails and nests, around garbage bins and points of entry. Repeat as necessary.
	Cockroaches	Outdoors: Spray all points of entry including air vents, window frames, cracks, crevices and door jams. Indoors: Behind and under sinks, stoves refrigerators, furniture, pipes, cornices, skirting boards and other known hiding or resting places.
	Fleas, Ticks (excluding Paralysis Ticks)	Spray outside surfaces of buildings and surrounds including but not limited to foundations, verandahs, window frames, eaves, patios, garages, dog kennels, soil, turf, trunks of woody ornamentals or other areas where pests congregate or have been seen. For best results perimeter treatment is advised – apply as indicated above. For best results perimeter treatment is advised – apply as indicated above.
Flies & Mosquitoes	Apply as a residual treatment to surfaces where insects rest or harbour such as windowsills, door jambs and flyscreens. Reapply as necessary.	

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

CAUTION: DO NOT apply to food plants. DO NOT apply during windy conditions. DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds. DO NOT spray directly onto humans, pets, exposed food, food utensils or food preparation areas. DO NOT spray if bees are foraging on flowering plants. Will kill bees. DO NOT contaminate fish tanks. DO cover fish tanks before using. Dangerous to fish. DO NOT use as a space spray.

PROTECTION OF PETS AND LIVESTOCK: Before treatment remove animals and pets from the areas to be treated. Cover or remove any open food and water containers. Cover or remove fish ponds, aquariums etc. before spraying. DO NOT apply within 2 metres of a fishpond or water containing fish or aquatic species.

STORAGE AND DISPOSAL: KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool, dry place. DO NOT store in direct sunlight. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in the garbage.

SAFETY DIRECTIONS: Will irritate the eyes. Avoid contact with the eyes. Wash hands after use.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26.

CONDITIONS OF SALE: The use of Amgrow Patrol Outdoor & Indoor Barrier Spray Professional Strength being beyond the control of the manufacturer no warranty expressed or implied is given by Amgrow Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Amgrow Pty Ltd accepts no responsibility for any consequence whatsoever resulting from the use of this product.
