Directions for Use

Lawn Establishment

Rake in 50 grams per square metre prior to seeding or planting. Apply as evenly as possible to ensure an even response. Always water in thoroughly.

Lawn Maintenance

To maintain a healthy, green lawn, apply Shirleys No.17 Lawn Food three times a year, ideally in August / September, November / December and March. Always water the lawn lightly before applying Shirleys, and water in thoroughly after application. Use 50 grams per square metre of lawn when fertilising in spring and autumn, and a lower rate of 10 grams per square metre in summer. Apply by hand as evenly as possible to ensure that you achieve even results.

Application Tips

- One adult handful holds about 50 grams of Shirleys.
- Avoid applying Shirleys to your lawn on hot, dry days.
- Shirleys is not suitable for application in solution. It should be applied dry, and watered in.

Analysis

Total Nitrogen (N)%	9.5
N as ammonia	9.5
Total Phosphorus (P)%	4.0
P as water soluble	3.3
P as citrate soluble	0.4
P as citrate insoluble	0.3
Total Potassium (K)%	5.0
K as sulphate	5.0
Sulphur (S) % as sulphate	18.1
