

HOW TO USE

AREAS	PEST	HOW TO PREPARE	CRITICAL COMMENTS
Fence posts and palings	Subterranean termites including <i>Coptotermes</i> sp. – in all States south of Tropic of Capricorn except Tasmania	200mL in 10L Creosote or 500mL in 10L process oil	Excavate 30cm around pole to a depth of 30–40cm. Apply 5L of mixture to the pole and the base of the tracks. Apply the remaining 5L to the soil backfilled into the trench. NOTE: For existing poles and posts, it is impractical to treat the full depth and underneath of such poles and posts and termite damage can occur below the treated area.
Household Situations	Ants, cockroaches, fleas, flies, mosquitoes, spiders, silverfish, bedbugs and carpet pests	25mL in 1L of light oil or water	All dilutions should be applied to the point of run-off, except for mattresses and carpets, using 5L of prepared spray per 100 to 150m ² depending on the porosity of the sprayed material. Porous surfaces such as brick, cement, ceramic (unglazed), etc. absorb the spray, and hence more spray is needed to deliver the required surface deposit. Spray in cracks, crevices and other insect harbours. When applying to mattresses and carpet apply an even thorough coverage. Product may discolor walls, e.g. white gyprock walls. It is recommended to do a spot test before making a broad application.
Lawns	Lawn armyworm (<i>Spodoptera mauritia</i>) Qld, NSW only	5mL – 10mL / 5L water / 100m ²	Apply at first sign of damage and as and when required. Ensure thorough even coverage.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED.

CAUTION
KEEP OUT OF REACH OF CHILDREN
READ SAFETY DIRECTIONS BEFORE OPENING OR USING

Patrol

**TERMITE, ANT,
COCKROACH &
MOZZIE KILLER**

ACTIVE CONSTITUENT: 100g/L PERMETHRIN 25:75
SOLVENT: 750g/L HYDROCARBON LIQUID

**For the control of Ants,
Termites and a range of
insect pests in the
home and garden
as specified in the
How to Use Table.**

CONTENTS 500mL

WHERE TO APPLY
ANTS: nests, runs, walls, drains and resting places where ants are seen.
BEDBUGS: cracks and crevices in adjacent walls, bed frames, mattresses.
CARPET PESTS: infested area of carpet, particularly around edges & under furniture.
COCKROACHES: walls, cupboards, skirting boards, behind sinks, stoves and pipes. Pay particular attention to cracks and crevices.
FLEAS: skirting, floors and carpets, kennels, bedding and adjacent wall areas.
SPIDERS: exposed surfaces where spiders are seen, nests and known hiding places.
SILVERFISH: walls, cupboards, cracks and crevices, ceiling and exposed floor spaces.
HOUSEFLIES & MOSQUITOES: all exposed surfaces where these flying insects may rest, e.g. walls, ceilings, verandahs, etc.
HOW TO PREPARE: Add the required amount of product to the water in the spray tank and mix well.
CAUTION: Use only as a surface spray. DO NOT spray into air. DO NOT spray directly on humans, pets, exposed food, food preparation areas or food utensils. Before use remove or cover all foodstuffs, food utensils and places where food is prepared or stored. DO NOT allow treated timber to come into contact with foodstuffs, e.g. in packaging cases or places where food is prepared or stored. Dangerous to fish and other aquatic organisms. Remove or cover fish tanks before use. DO NOT allow chemical containers, spray or unused solution to get into drains, sewers, ponds or streams.
STORAGE AND DISPOSAL: Store in the original container in a cool, dry place – out of reach of children. DO NOT store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.
SAFETY DIRECTIONS: Will damage the eyes. Will irritate the nose, throat and skin. Avoid contact with the eyes and skin. DO NOT inhale vapour. When opening the container, preparing spray and using the prepared spray wear cotton overalls buttoned to the neck or wrist (or equivalent clothing), rubber gloves, and goggles. If product on skin, immediately wash area with soap and water. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves, goggles and contaminated clothing.
FIRST AID: If poisoning occurs contact a Doctor or Poisons Information Centre – Phone Australia 131126. If swallowed, DO NOT induce vomiting. Give a glass of water.
