

**Amgrow**  
**TROPIC**  
**LAWN FOOD**

Amgrow Tropic Lawn Food has been a favourite with home gardeners for more than 60 years. It contains a balanced blend of nutrients in an ideal ratio for lawns, fruit trees, and a wide range of ornamental trees and shrubs.

- Nitrogen, for healthy green leafy growth
- Phosphorus to develop a vigorous root system
- Potassium for improved health and colour

**HOW TO USE**

Sprinkle by hand or with fertiliser spreader. After application, water in thoroughly. 1 cup holds approximately 150g of Tropic.

**New Lawns**

Apply 4-6 weeks after establishment. Firstly, give the lawn a light watering. Then apply evenly 25g per square metre of lawn. Water in thoroughly. Repeat every 6 weeks for the next 6 months.

**Established Lawns**

Firstly, give the lawn a light watering. Then apply evenly 50g per square metre of lawn. Water in thoroughly. Apply in spring and autumn.

**Fruit Trees**

Apply 150g per tree for each year of the tree's age up to a maximum of 1.5kg. Water in thoroughly. Apply in July, November and January.

**Ornamental Shrubs & Bushes**

Apply evenly 25g per square metre spreading out to the edge of the foliage line. Keep Tropic at least 15cm away from the trunk. Water in thoroughly. Wash off any fertiliser from leaves or branches.
