350g NET

DIRECTIONS FOR USE

SITUATION	PEST	RATE	CRITICAL COMMENTS
Domestic, institutional and industrial premises – food preparation and storage areas and living and sleeping areas	Cockroaches, silverfish	10g/m ² applied with a powder duster	Blow powder into all cracks and crevices. Pay particular attention to warm, dark corners around cookers, fireplaces, radiators, stores, pipes, rubbish chutes and places where liquid sprays may not be used.
	Ants		Sprinkle the powder along runs, on and around nests. If ants are invading domestic premises, apply powder to the routes by which they enter. Repeat as necessary.
	Fleas		Dust powder over floor, brushing into carpet pile and blowing into areas where flea larvae develop.
Roof voids, wall and floor voids, crawl spaces	Bedbugs	Apply powder to bedsteads, bedsprings, mattresses, floor coverings, upholstered furniture, cracks in walls, behind trim wallpaper, joints in woodwork and other cracks and crevices that may provide harbourages.	Apply dust into all void areas. Ensure all surfaces are treated. Repeat as necessary if re-infestation occurs.
	Spiders, cockroaches, silverfish, ants and fleas		
Large Wasp nests	European wasps Not QLD, SA	125g to 250g per nest	Using hand duster apply powder through entrance holes (125-250g per nest depending on size of nest and number of entrance holes). Treat at night whenever possible. Operators should wear clothing protective against the wasp including long-sleeved overalls buttoned at wrist and throat, gloves, hat and bee-veil.
Trees and stumps in urban areas	Subterranean termites (<i>Coptotermes spp</i>)	250g per tree	Upon locating nest in tree or stump, drill 3 holes with a maximum diameter of 12mm. Apply dust directly to the nest using a carbon dioxide gas cylinder and a trigger gun. After treatment, holes should be coated carefully with a fungicide, e.g. copper naphthenate, and sealed with an appropriate caulking compound.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

APPLICATION: Amgrow Patrol Ant and Wasp Dust Insecticide is ready to use; no further diluent should be added. Easy to use pack allows easy and targeted application of the dust. Open Nozzle and apply the dust to surface by lightly squeezing the container. Leave powder undisturbed for as long as possible after application.

INSECTICIDE RESISTANCE WARNING GROUP 3A INSECTICIDE: For insecticide resistance management, Amgrow Patrol Ant and Wasp Dust Insecticide is a Group 3A Insecticide.
