

Patrol Rodex Rat Blocks

NOW AVAILABLE

Rodex Rat Blocks

- For the control of rats and mice, including those resistant to other anticoagulants, in and around industrial, commercial, public services and domestic buildings.
- Amgrow Patrol Rodex Blocks are particularly useful in areas where baits deteriorate rapidly, such as damp areas, sub-floors, roof voids and out-houses.
- The hole in the centre of the block will allow pinning or tying in positions off the ground in very moist areas, or where rodents are climbing.
- Active Ingredient: 0.05 g/kg Brodifacoum

Pack Size : 500g

Patrol®

SITUATION	PEST	RATE	CRITICAL COMMENTS
Apply where pests occur, e.g. food processing factories, or stores, laundries, restaurants, ships, boiler houses, hotels-motels.	Rats	2 or more blocks per bait station	Rats require large quantities of blocks in one or two locations.
	Mice	2 or more blocks per infested area	Mice require several bait stations.
			Blocks should be separated before use. Place in sheltered positions near rodent entry points and other areas of rodent activity. Inspect blocks regularly and ensure sufficient are always available. For effective control, remove alternative food sources and continue to bait until feeding ceases.
