**Section 1 - Identification of Chemical Product and Company**

**Chemical Nature:** Liquid wetter  
**Trade Name:** Lawnporn Moist  
**Product Use:** Wetting Agent, surfactant  
**Supplier:** Lawnporn Pty Ltd  
32 Scoble Street  
Whyalla Norrie, SA 5608  
Phone: 0407 978 267  
www.lawnpornonline.com  
**Issue Date:** October 2017

**Section 2 - Hazards Identification**

**Statement of Hazardous Nature**

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO THE CRITERIA OF SWA  
NOT A DANGEROUS GOOD ACCORDING TO THE ADG CODE, IATA OR IMDG/IMSBC CRITERIA

**Risk Phrases:** Not Hazardous - No criteria found.  
**Safety Phrases:** Not Hazardous - No criteria found.  
**SUSMP Classification:** Not scheduled  
**ADG Classification:** None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.  
**UN Number:** None allocated  
**GHS Signal word:** NONE. Not hazardous.

**PREVENTION**  
P102: Keep out of reach of children.  
P262: Do not get in eyes, on skin, or on clothing.  
P281: Use personal protective equipment as required.

**RESPONSE**  
P353: Rinse skin or shower with water.  
P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
P370+P378: Not combustible. Use extinguishing media suited to burning materials.

**STORAGE**  
P402+P404: Store in a dry place. Store in a closed container.

**DISPOSAL**  
P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

**Emergency Overview**  
**Physical Description & colour:** Clear to milky colourless liquid  
**Odour:** Mild odour  
**Major Health Hazards:** No significant risk factors have been found for this product.

**Section 3 - Composition/Information on Ingredients**

<table>
<thead>

</tbody>
</table>

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.
**Section 4 - First Aid Measures**

**General Information:** You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

**Inhalation:** If mists have been inhaled, and irritation has developed, remove to fresh air and observe until recovered. If irritation becomes painful or persists for more than about 30 minutes, seek medical advice.

**Skin Contact:** Wash affected areas with water until chemical is removed. Remove all contaminated clothing and launder before re-use. If in doubt obtain medical advice.

**Eye Contact:** Immediately irrigate with copious amounts of lukewarm, gently flowing water for 15 – 20 minutes or until the product is removed or irritation has ceased, while holding the eyelid(s) open. Obtain medical advice if irritation becomes painful or lasts more than a few minutes.

**Ingestion:** Give a glass of water if affected person able to drink. Do not induce vomiting unless instructed to do so by medical advice.

**Notes to Doctor:** Treat symptomatically.

**Section 5 - Fire Fighting Measures**

**Fire and Explosion Hazards:** The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness.

Fire decomposition products from this product are likely to be irritating if inhaled.

**Extinguishing Media:** Not combustible. Use extinguishing media suited to burning materials.

**Fire Fighting:** If a significant quantity of this product is involved in a fire, call the fire brigade.

**Flash point:** Does not burn.

**Upper Flammability Limit:** Does not burn.

**Lower Flammability Limit:** Does not burn.

**Flammability Class:** Does not burn.

**Section 6 - Accidental Release Measures**

**Accidental release:** In the event of a major spill, prevent spillage from entering drains or water courses.

As a minimum, wear overalls, goggles and gloves. Stop leak if safe to do so, and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. Full details regarding disposal of used containers, spillage and unused material may be found on the label. If there is any conflict between this SDS and the label, instructions on the label prevail. Dispose of only in accord with all regulations.

**Section 7 - Handling and Storage**

**Handling:** Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

**Storage:** Store in a cool, dry place away from children and animals or foodstuffs. Ensure containers are labelled, protected from physical damage and sealed when not in use. Store away from farm chemicals e.g. insecticides, fungicides and herbicides. Containers should be kept closed in order to minimise contamination. Keep from extreme heat and open flames, and make sure that the product does not come into contact with substances listed under "Materials to avoid" in Section 10.

**Section 8 - Exposure Controls and Personal Protection**

**Exposure Limits TWA (mg/m3) STEL (mg/m3) ADI (mg/Kg/day) NOEL (mg/Kg/day)**

Exposure limits have not been set for any ingredients in product at the concentrations present. The TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. There is a blanket limit of 10mg/m³ for dusts or mists when limits have not otherwise been established. The STEL (Short Term Exposure Limit) is an exposure value that should not be exceeded for more than 15 minutes and should not be repeated for more than 4 times per day. There should be at least 60...

Issued: October 2017

minutes between successive exposures at the STEL. The term "peak " is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

**Personal Protection**

The following Australian Standards will provide general advice regarding safety clothing and equipment:

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

**Ventilation:** Avoid high mist concentration and provide local exhaust ventilation where necessary.

**Eye Protection:** Eye protection such as protective glasses or goggles is recommended when this product is being used.

**Skin Protection:** Wear gloves to prevent skin contact. Wear overall and long sleeves to prevent contact

Provision of eye wash facilities and safety shower recommended.

Wash hands before eating, drinking, smoking or going to the toilet, launder protective clothing before re-use.

**Section 11 - Toxicological Information**

**Dermal:** Draize test – rabbit: non-irritant, Oral LD_{50} (rat) >2000mg/Kg. |

**Target Organs:** There is no data to hand indicating any particular target organs.

**Potential Health Effects**

**Inhalation:** No adverse effects expected |

**Skin Contact:** Product is irritating to the skin |

**Eye Contact:** Irritating to eyes – may cause long term damage to eyes |

**Ingestion:** Ingestion of large amounts may cause gastrointestinal disorder, nausea, diarrhoea, vomiting, |

**Carcinogen Status:** |

**SWA:** No significant ingredient is classified as carcinogenic by SWA |

**NTP:** No significant ingredient is classified as carcinogenic by NTP |

**IARC:** No significant ingredient is classified as carcinogenic by IARC
Section 12 - Ecological Information
This product is biodegradable. It will not accumulate in the soil or water or cause long term problems. Not expected to not be an environmental hazard.

Section 13 - Disposal Considerations
Disposal: Containers should be emptied as completely as practical before disposal. If possible, recycle product and containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site.

Section 14 - Transport Information
ADG Code: This product is not classified as a Dangerous Good for transport by road or rail
IMDG/IATA: This product is not classified as a dangerous good for transport by sea or air

Section 15 - Regulatory Information
AICS: All of the significant ingredients in this formulation are to be found in the public AICS Database.

Section 16 - Other Information
This SDS contains only safety-related information. For other data see product literature.

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.

IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS.

OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using product.

This SDS is prepared in accord with the NOHSC document “National Code of Practice for the Preparation of Material Safety Data Sheets” 2nd Edition [NOHSC:2011(2003)]
