Amgrow Naturals Plant Starter

Amgrow Naturals Plant Starter is a blend of Australian Seaweed and plant extracts with a small amount of added nitrogen fertiliser.

The seaweed and plant extracts contain a range of plant growth regulators and antioxidants which enable transplanted seedlings and plants to re-establish with increased root development and minimal transplant shock.

DIRECTIONS FOR USE:

- Store Amgrow Naturals Plant Starter in a cool place out of direct sunlight.
- Shake well before using
- Add required quantity to water and mix well
- Use the diluted solution within an hour or two

APPLICATION RATES:

Transplanted Seedlings: Mix 20 mLs in 9 litres of water. Apply generously after planting

Potted Plants, Re potting, Transplanting and Planting Out: Mix 20 mLs in 9 litres of water. Apply generously after planting

Newly Laid Turf: Mix 20 mLs in 9 litres of water. Apply 3 litres per square metre 2 - 7 days after laying turf.

Cuttings: Dip soft tip cuttings into the undiluted Plant Starter. For hard wood cuttings soak the tip in undiluted Plant Starter overnight.

PRECAUTIONS:

Avoid contact with eyes. If eye contact occurs, flush eyes under running water. If irritation persists, seek medical advice.
